• <https://ankit-portfolio07.netlify.app/> • New Delhi, INDIA

Summary

"Motivated and passionate engineering graduate with strong technical skills, eager to contribute to organizational growth. Self-driven and committed to excellence, seeking a dynamic opportunity to apply expertise, enhance skills, and foster professional development in a growth-oriented organization."

Technical Skills

Programming: Python • C • C++

Web Development: HTML • CSS • Bootstrap • JavaScript • Django • Flask

Databases: MySQL • MongoDB • SQLite • PostgreSQL

Data Analysis: Pandas • NumPy • Jupyter • Excel • Power BI

Version Control & Tools: Git • GitHub • VS Code

Concepts: OOP • Data Structures & Algorithms • Machine Learning (ML) • Artificial Intelligence (AI)

Experience

Codtech IT Solutions — https://github.com/ankitpoddar07/Smart_Data-Analyzer Remote, Hyderabad, India
Python Programming - Internship

Developed a Python-based Data Analyzer during an internship at Snestron Systems Pvt. Ltd

- **Developed a Python-based data analysis tool** using **Excel, Pandas, NumPy, and Matplotlib** for data cleaning, processing, and automated PDF reporting.
- **Performed statistical analysis and built visualizations** to uncover insights, delivering charts and reports that supported decision-making.

Deloitte -Internship, Remote, Noida, India

Deloitte Australia – Technology Job Simulation (Forage) | Jul 2025

- Developed **Python** solutions in **Replit** to automate workflows and optimize IT processes, including dashboard proposal design.
- Conducted data analysis to identify inefficiencies and deliver data-driven improvement strategies.

Deloitte -Internship, Remote, Noida, India

Deloitte Australia – Data Analytics Job Simulation (Forage) | Jul 2025

- Conducted comprehensive **data analysis** and forensic technology evaluation as part of a simulated business scenario.
- Developed interactive dashboards in Tableau and performed advanced data classification in Excel to derive actionable business insights.

Projects

E-Commerce Web Application :

https://github.com/ankitpoddar07/djangoecommerce_web

Developed a dynamic e-commerce web app using Django with user authentication, secure transactions, and order management.

- Built an admin dashboard for inventory control, integrated payment gateways, and optimized database performance for enhanced functionality.

Hotel Bookings Website (sample) :

<https://oyowebiste.vercel.app/>

- Website using PHP, MySQL, HTML, CSS, and JavaScript, featuring hotel search with facilities, user authentication, admin booking management, and automated PDF booking confirmations.

Education

(ITR) Veer Madho Singh Bhandari Uttarakhand Technical University

Uttarakhand, India

Bachelor's Degree in Computer Science Engineering | GPA: **7.9** / 10

2020 - 2024
